ECLIPSES, 1907

There will be four Eclipses this year, two of the Sun and two of the Moon, and a Transit of Mercury, as follows:

I. Total of the Sun, Jan. 14, invisible in the United States.

II. Partial of the Moon, Jan. 29. The moon will set before the end of the eclipse in eastern United States. The beginning, (Penumbra) will be visible generally in the United States at 5.46 A.M., Eastern Standard Time.

III. Annular of the Sun, July 10, invisible in the U. S.

IV. Partial of the Moon, July 24-25, visible in United States. Begins (Umbra), 10.4 P.M., 24th; ends 0.40 A. M., 25th. Size, 7.44 digits on the northern limb.

Transit of the planet Mercury across the sun's disk from west to east, Nov. 14. Begins at 5.18 A.M.; ends at 8.39 A.M. Look near the northern limb of the sun, using smoked or colored glass to protect the eyes.

MORNING AND EVENING STARS AND PLANETS BRIGHTEST.

MERCURY, Feb. 20–28, evening star; Aug. 18–28, morning star. VENUS, morning star until Sept. 14; brightest Jan. 4; evening star remainder of year. MARS, evening star after March 9; brightest July 6*: morning star remainder of year. JUPITER, evening star until July 16 and after Nov. 5, (not brightest this year); morning star remainder of year. SATURN, evening star until March 9 and after June 19, brightest Sept. 17; morning star remainder of year.

*At this time Mars will be the brighter because nearer to the earth, than he has been in 15 years, or will again be in same time.

Domestic Postage.

FIRST CLASS.—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, **two cents per ounce** or fraction thereof. A "Special Delivery" ten-cent stamp, when attached to a letter in addition to the lawful postage, entitles the letter to immediate delivery at, or within one mile of, any post-office. Postal cards, one cent each; with paid reply, two cents each.

SECOND CLASS.—All regular newspapers, magazines, and other periodicals issued at stated intervals, at least four times a year; the postage is **one cent for each four ounces,** payable by postage stamps.

THIRD CLASS.—Embraces **printed books,** pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class when mailed in lots of twenty or more. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is **one cent for each two ounces** or fraction thereof.

FOURTH CLASS.—All mailable matter, not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, **one cent per ounce** or fraction thereof, except seeds, roots, cuttings, bulbs, plants, and scions, which are **one cent per two ounces.** Limit of weight, 4 lbs. Full prepayment compulsory. Liquids, and other like injurious matter, not admitted, except under conditions which may be learned at any post-office.

Register all valuable letters and packages. **Registry fee, eight cents,** which, with the postage, must be fully prepaid.

FEES CHARGED FOR MONEY-ORDERS.—For Money-Orders in denominations of $100 or less, the following fees are charged: For orders for sums not exceeding $2.50, 3 cts.; $2.50 to $5, 5 cts.; $5 to $10, 8 cts.; $10 to $20, 10 cts.; $20 to $30, 12 cts.; $30 to $40, 15 cts.; $40 to $50, 18 cts.; $50 to $60. 20 cts.; $60 to $75, 25 cts.; $75 to $100, 30 cts.

Foreign Postage.

To all Foreign Countries (except Canada and Mexico):

On Letters, **five cents for each half ounce** or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

International Postal Card, two cents.

On Newspapers, Books, Pamphlets, Photographs, Sheet Music, Maps, Engravings, and similar printed matter, **one cent for each two ounces** or fraction thereof.

All matter except Letters must be prepaid. Letters and other packages may be registered on payment of a fee of eight cents.

To CANADA (including Nova Scotia, New Brunswick, Manitoba, and Prince Edward Island): LETTERS, **two cents for each ounce** or fraction thereof; Books, Circulars, and similar printed matter, **one cent for each two ounces** or fraction thereof; SECOND CLASS MATTER same as in the United States; SAMPLES, **one cent per two ounces** (must be paid at least two cents); MERCHANDISE, **one cent per ounce.** Packages must not exceed 4 lbs. in weight—prepayment compulsory. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail to Canada.

To MEXICO: Letters, Postal Cards, and printed matter, same rates as in the United States. SAMPLES, **one cent per two ounces;** MERCHANDISE other than samples can only be sent by Parcel Post. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail.

To PHILIPPINES, CUBA, GUAM, PORTO RICO, TUTUILA, and HAWAII, same rates as in the United States.

LIMITS OF SIZE AND WEIGHT: Packages of samples of merchandise to all countries must not exceed 12 ozs., nor measure more than 12 inches in length, 8 in breadth, and 4 in depth; and packages of printed matter must not exceed 4 lbs. 6 ozs.

INTERNATIONAL OR FOREIGN MONEY-ORDER FEES.—On Money Orders payable in foreign countries the following fees are charged: For Orders for sums of $10 or less, 10 cents; $10 to $20, 20 cents; $20 to $30, 30 cents; $30 to $40, 40 cents; $40 to $50, 50 cents; $50 to $60, 60 cents; $60 to $70, 70 cents; $70 to $80, 80 cents; $80 to $90, 90 cents; $90 to $100, $1.00.

Rules for Computing Interest.

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.— Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.— Multiply by number of days, and divide by 72.

Six per Cent.— Multiply by number of days, and divide by 60.

Seven per Cent.— Multiply by number of days, and divide by 52.

Eight per Cent.— Multiply by number of days, and divide by 45.

Nine per Cent.— Multiply by number of days, and divide by 40.

Ten per Cent. — Multiply by number of days, and divide by 36.

Twelve per Cent.— Multiply by number of days, and divide by 30.

Fifteen per Cent.— Multiply by number of days, and divide by 24.

Eighteen per Cent. — Multiply by number of days, and divide by 20.

Twenty per Cent.— Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

Weights — Measures.

MEASURES OF WEIGHT.—*Avoirdupois:* 1 pound equals 7000 grains; 16 drams, 1 ounce; 16 ounces, 1 pound; 112 pounds, 1 hundredweight; 20 hundredweight, 1 ton. *Troy:* 1 pound equals 5760 grains; 24 grains, 1 pennyweight; 20 pennyweights, 1 ounce; 12 ounces, 1 pound. *Apothecaries':* 1 pound equals 5760 grains; 20 grains, 1 scruple; 3 scruples, 1 dram; 8 drams, 1 ounce; 12 ounces, 1 pound. *Metric:* 1 kilogramme equals 1000 grammes, equals 2.2 Avoirdupois pounds.

MEASURES OF LENGTH.—*Customary:* 12 inches equal 1 foot; 16½ feet, 1 rod; 40 rods, 1 furlong; 8 furlongs, 1 statute mile; 1 statute mile, 5280 feet or 1760 yards; 1 marine league, 3 nautical miles; 1 fathom, 6 feet; 1 nautical mile equals 6080.2 feet. *Metric:* 1000 millimetres equal 1 metre; 1000 metres, 1 kilometre; 1 metre equals 39.37 inches.

SURFACE OR SQUARE MEASURE.—*Customary:* 144 square inches equal 1 square foot; 9 square feet, 1 square yard; 30.25 square yards, 1 square rod; 40 square rods, 1 square rood; 4 square roods, 1 acre; 640 acres, 1 square mile; 1 acre equals 208.7 feet square. *Metric:* 1 square metre equals 10.764 square feet; 100 square metres equal 1 are; 1 hectare equals 100 ares, or 2.471 acres.

SOLID OR CUBIC MEASURE.—*Customary:* 1728 cubic inches equal 1 cubic foot; 27 cubic feet, 1 cubic yard; 40 cubic feet of round timber, 1 ton; 50 cubic feet of hewn timber, 1 ton; 128 cubic feet of wood (4 feet by 4 feet by 8 feet), 1 cord; 24.75 cubic feet of stone, 1 perch — usually 16½ feet by 1½ feet by 1 foot, but varies greatly. *Metric:* 1000 cubic centimetres equal 1 litre; 1 litre equals 1.0567 quarts.

LIQUID MEASURE.—English gallon equals 277.274 cubic inches, or 1.20032 U. S. gallons; 4 gills, 1 pint; 2 pints, 1 quart; 4 quarts, 1 gallon.

DRY MEASURE.—1 bushel equals 2150.42 cubic inches; 2 pints, 1 quart; 4 quarts, 1 gallon; 2 gallons, 1 peck; 4 pecks, 1 bushel. *Metric:* 10 millilitres equal 1 centilitre; 10 centilitres, 1 decilitre; 10 decilitres, 1 litre; 1 litre, 0.908 dry quart.

CAPACITY OF BOXES.

25	in. sq.,	11.66	in. deep	= Approx.	1 wine barrel.
20	" "	9.10	" "	= "	1 wine half barrel.
17	" x 14	in. 9.00	" "	= "	1 bushel.
15	" x 12	" 9.00	" "	= "	½ "
8	" sq.,	8.40	" "	= "	1 peck.
8	" "	4.20	" "	= "	1 gal. (dry measure).
7	" diam.,	6.00	" "	= "	1 gal. (liquid measure).

The Metric System.

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.— 10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1,000 kilograms 1 metric ton.

METRIC MEASURES.— (One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.— 10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ⅓ inch; a metric ton is about same as an ordinary ton; a kilometer is about ⅝ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.308 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.05 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 pint, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.101 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0927 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8361 sq. meter; 1 ton (2,000 lbs.), .9072 metric ton; 1 ton (2,240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2000 lbs.); 1 ton (metric), 9.842 ton (2,240 lbs.); 1 yard, .9144 meter.

STORM AND HURRICANE WARNINGS.

N. E. Winds. S. E. Winds. N. W. Winds. S. W. Winds. Hurricane.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence.

The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds, white light above red, westerly winds.

Two red flags with black centers indicate approach of tropical hurricanes.

No night hurricane signals are displayed.

Italian notes and silver are not current in France, Belgium, and Switzerland, but the silver of these countries passes current in Italy.

Help in Case of Accidents.

DROWNING.— 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. DON'T GIVE UP! People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment— reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.— The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.— Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Help in Case of Accidents.

BURNS AND SCALDS.— Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.— Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia— twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.— Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.— Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.— *Don't run*— especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.— *Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.— Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

FAINTING.— Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.— Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.— Dash cold water over a person struck.

Poisons and Antidotes.

FIRST.—Send for a physician.

SECOND.—INDUCE VOMITING, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalies, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the HYPODERMIC injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimate require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes.

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemeta of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Spent evening in Museum working

Wea. SAT. DEC. 7, 1907 Ther.

Clear & mild. The snow melting fast & the sidewalks & streets bare & nearly dry by sunset.

Spent day working on Umbagog journals in Museum. Mrs. Bowditch & her friend Miss Walker lunched with us to-day at the Sanders; there are no birds about us. I have not seen nor heard one of any kind in the garden these past three days.

[illegible] callers to-day.

Wea. SUNDAY 8 Ther.

Clear, mild, calm. Snow disappearing rapidly.

Spent the forenoon, the evening and a portion of the afternoon in the Museum working Letters. In early afternoon called on the Chapmans and on Mrs Cobb & Louise Tucker. A Flicker & a Blue Jay heard in the Garden. A Downy W. seen on Buckingham St.

Cambridge

Wea. MON. DEC. 9, 1907 Ther.

Clear, Calm, positively warm.
Snow nearly all gone by night
and the lawns showing very green.

Spent day in Museum working
on Umbagog journals. Walter
type writing ceaselessly. H. H
Kimball called in P.M. Gregory
a lot of association bills for
me to make with my approval.
Purdie called at 5ᵀ. 30. I returned
to Museum for the evening to write letters.

Wea. TUESDAY 10 Ther.

Violent South-west storm with
heavy gale of wind & floods of rain.
I visited the Straight Non Partisan
Ticket at the polls at G. A. R.
Spent day working in the
Museum on Umbagog journals.
Returned to my desk at 8.15
To write letters. Larry is most
glad to see me during these evening
visits.

Saw together in the Garden 2
Chickadees a Brown Creeper and
a ♂ White Bellied Nuthatch.

Cambridge.

Wea. WED. DEC. 11, 1907 Ther.

Cloudless with fresh W. wind.
Cooler but not freezing

Worked in the Museum all
day on Umbagog journals. No callers.
Two Blue Jays screaming in the
Garden. No other birds noted there.
A Miss Jasper dined with us
at the Scudders this evening.
Grippe is fairly raging in Boston
& Cambridge. I have rarely known
more cases but they are of a mild
type.

Wea. THURSDAY 12 Ther.

Clear with light W. wind. Still
cooler, the ground frozen hard all day.

Finished index margining of
Umbagog journals this forenoon.
Spent afternoon discussing and
settling various details with Walter
& Gilbert. Walter will cease work
on January 1. Gilbert is to visit
the Museum daily and to keep a
small fire in the furnace. All the
plants are to be sent in my study.
All the Pigeons went to Sonnberger's
today. I spent this evening in Boston.

Cambridge - Boston.

Wea. FRI. DEC. 13, 1907 Ther.

Clear, cool, calm. Ground hard frozen in early morning, muddy in places at noon.

Spent most of day in the Museum superintending the packing of trunks etc in preparation for my departure on Monday.

To Mus. Comp. Zool. at 3.30 Had a long talk with Mr. Agassiz about leaving my bird collection & library to Harvard College. Saw Gary Herrshaw, also. Walked home at 5 P.M. or 5½ to the Museum and spent the evening at home.

Wea SATURDAY 14 Ther.

Heavy easterly snow storm beginning at noon and covering ground to depth of about 5 inches by night-fall.

Went in town at 9 A.M.

Spent most of forenoon in our office. Took out letter of credit for 2000. & signed a power attorney for Mackintire to draw & endorse cheques on my account. Spent noon hour with Minnick & Davis Lockwood in hall (Fay's) Office. Got back to Museum at 2.30 & stayed [illegible] to 6.

Cambridge - Washington.

Wea. SUN. DEC. 15, 1907 Ther.

Cloudy with fine, sleety rain changing to snow at nightfall. The ground snow-covered to depth of 6 inches.

Spent forenoon in Museum writing Gilbert arranging his winter's work etc. Mr & Mrs. Bowditch came to dinner at the Scudders'. At 3 P.M. I called on Waller & Morgie, at 4.. on Mr. & Mrs. Coolidge at 4.30 on Mrs. Cobb & Loring Tileston. Ruthven Deane telephoned me at 7 P.M. from Geo. B's. I could not go to town on Mrs. Putnam's Miss Cotheneal from Lansing coming with me to Mrs. Scudders. I saw them home at 9 P.M. to

Wea. MONDAY 16 Ther.

Cloudy most of day. Cool with light W. wind.

Left Mrs. Scudders' at 8.10 A.M. to take the Colonial Express 9.04 A.M. from Back Bay for Washington D.C. It was a wholly uneventful trip. I read most of the way. The cabin was half empty & I found an interesting [illegible] Washington at 10.10 P.M. Henry H. met me at Station. We drove in a cab to the Gordon where I found C.Y.B. & Bessie [illegible]

Washington.

Wea. TUES. DEC. 17, 1907 Ther.

Chiefly cloudy with a few rays of sunshine. Very mild & dowm. Got up & spent forenoon unpacking & putting away my things. Took breakfast with G. K.S. & lunch with C. & G. K.S. The latter returned to Cambridge by Federal Exp. to-night.

In P. M. I went to Arlington about D.S.C. which I sent Henry, Talbert, Hodges & Osborn & to the Dunbar Women which I sent Richmond, Kelly & Ashelm.. C. read to me in the evening.

Wea. WEDNESDAY 18 Ther.

Cloudy, calm, cool but not frosty

Went down town in forenoon. Consulted Dr. Allen, Henry's dentist, about my teeth which he says need much attention. Called on the Smith Premier, office and hired a typewriter for C. to use at the Gordon (#4. for one month). Met Wambaugh, the Corcoran, on the Ave. Spent afternoon & evening with C. in our rooms. She read to me from the "Shuttle" a good English novel

Washington

Wea. THUR. DEC. 19, 1907 Ther.

Clear & colder with high N.W. wind.

To Dr. Allen's office at 8.30. He pulled the nerve of a large & important but very front tooth which he has decided to take first.. I then went to Wambaugh's store where I bought a lot of rugs and to the Smith Typewriter Office again. Spent afternoon in our rooms. C. did not go out all day. Henry H. called in the evening & we had a good talk.

Wea. FRIDAY 20 Ther.

Forenoon clear, calm, warmer. Clouds gathering in afternoon.

To Dr. Allen's at 9.20. He filled a tooth not the one pulled yesterday. Returning I took a walk with C. through the park in the Potomac Flats & back past our old boarding house. Richmond C. wrote for me here with the typewriter after dinner. I worked a little on Cuba notes and then went to the Arlington & heard my boy read. He read from the "Shuttle" in the evening.

Washington.

Wea. SAT. DEC. 21, 1907 Ther.

Clear, calm, mild.

C & I went shopping for Christmas cards this forenoon walking as far as Eleventh Street. In the afternoon we went to the Columbia Theatre where we saw a rather bright modern play, the "Rejuvenation of Aunt Mary." Harry & Nelson called at 8.30 staying until 11 P.M. Grass in parks green & growing. I see no birds there except Sparrows. Have seen only one Squirrel

Wea. SUNDAY 22 Ther.

Clear, Calm, Mild, the very best day of a series of fine ones.

To my new dentists by appointment at 9.30. Apparently he works regularly on Sundays for another patient took the chair when I vacated it at 11, I walked directly back to the Gordon where C. & I spent the remainder of the day and the evening, reading, writing & trying up Christmas cards & calendars. These & theses only are we sending off this year.

Washington.

Wea. MON. DEC. 23, 1907 Ther.

Forenoon rainy; afternoon clear. Warm as summer almost.

Spent entire day in bed because of a heavy cold & the headache, bone ache type. Merriam called in the evening but I did not see him.

Wea. TUESDAY 24 Ther.

Clear with brisk N. W. wind. Cooler but not freezy.

Up & dressed this morning feeling much better. Spent forenoon in our little parlor at the Gordon, C. reading aloud to me.

In afternoon went to Dr. Allen's office by appointment & had my tooth finally filled. Bought four Christmas wreaths at a florists. The city seemed very quiet with few people on the streets.

Washington.

Wea. WED. DEC. 25, 1907 Ther.

Another perfect day, brilliantly clear, windless or nearly so, the air cool yet without trace of chilliness.

C. went to early Services at St. Johns. After her return we unbind our presents. After that she read to me for an hour from Mrs "Stuttle", one rare good story.

In the afternoon we wrote, letters &c., called on the Mathews leaving the whole family & the Farnums, Bayleys also.

Henry & Nelson dined with us at 7 P.M. & Hunt this evening

Wea. THURSDAY 26 Ther.

Less perfect than yesterday with a touch of chilliness in morning & evening but still sunny, windless & just pleasantly warm, or cool.

To the dentists at 9.45. He attacked and filled another tooth.

Met C. at the Arlington at 11. We walked down the avenue to the post Office. Called at a jewelry store to have a ring sized. Lunched two Theatre tickets at the Columbia & got back to lunch. Were at the in P.M. C. read the "Hunter" to me in the evening

Washington.

Wea. FRI. DEC. 27, 1907 Ther.

Partly cloudy & warmer with a rather fresh S. W. wind.

C. & I walked to the Market this morning to buy plants for our rooms. We found a poor assortment & bought only a maidenhair fern, a cyclamen and two pans of Truman hyacinths. Some of the stalls having withered & festooned with crepe. I took no photos. We supped at 7 on St. Hunt in our bath. Read, wrote letters in P.M. Heavy rain this evening

Wea. SATURDAY 28 Ther. 68° max.

Clear, calm, still warmer. The lawns as green as in April. Flies buzzing about in the open air. No native birds whatever. Actually I have not seen nor heard one here.

To my dentists at 8.45. After a trying session of an hour & a half I returned to the Arlington & wrote letters until luncheon.

C. & I met at the Columbia Theatre at 2 P.M. & the walking & driving through Rock Creek Park. We walked Back about Scott's statue & saw Miss Hook & Howard & a lady & gentleman [illegible] each other. Mr. Adams & servant [illegible]

Washington

Wea. SUN. DEC. 29, 1907 Ther.

Clear, calm, somewhat cooler.
A dreamy day.

Had an appointment with Dr. Allen at 10.30. He kept me about an hour & a half. It gave me excessive pain.

In afternoon wrote letters & walked with C. to the Shoreham where she called on a friend. Mr. Dimmick came to the Gordon to see me at 5 staying until 7. Henry came at 8.10 & stayed until 11.

Wea. MONDAY 30 Ther.

Forenoon rainy; afternoon clear & calm. Almost uncomfortably warm - like a day in late April.

I spent the forenoon in the reading room of the Gordon working on chronology M.S. and reading a page of two myself. At 1.45 I went to the dentist's and spent about an hour in his chair. After that I walked back. Henry called at 8 P.M. to take me to the Cosmos Club whereon I met Mrs. Fremont & Colonel Fremont for the first time

Washington, D.C.

Wea. TUES. DEC. 31, 1907 Ther.

Brilliantly clear and cooler with fresh N.W. wind.

To Dr. Allen's at 8.40. Sporting two hours in his chair and then going to the Senate Reporters' gallery where I talked with Ridgway for about two hours. Trennell, Richmond & Hackett there. Mr. Beard (Butler & Beard) & Mr Rathbun and Mr Hackett dined with me. I lunched alone at Hay-Adams. Spent late P.M. writing letters. Miss Gregerson called on C. & carried her back to Wolcott Apts. on the Shoreham, rather. Merriam came at 8.15 & stayed until 11 He was most entertaining telling Indian legends.

NOTES FOR 1908.

I sat up reading until midnight when the noise of revelers, bells &c. was deafening all over the city lasting fifteen minutes or more.

An impressive few moments were those during which Mr. Thompson played the "Sanctus," from Gounod's "St. Cecilia Mass," and following this Rev. Mr. Frothingham read the last poem which Mr. Aldrich ever wrote and which was in memory of the poet Henry Wadsworth Longfellow, on the occasion of the Longfellow centennial anniversary in February. This poem, it will be recalled, Mr. Aldrich wrote for the Atlantic Monthly, in the March number of which it was printed. The verses, as read by the clergyman, are as follows:

LONGFELLOW

[1807—1907]

Above his grave the grass and snow
Their soft antiphonal strophes write:
Moonrise and daybreak come and go:
Summer by Summer on the height
The thrushes find melodious breath;
Here let no vagrant winds that blow
Across the spaces of the night
Whisper of death.

They do not die who leave their thought
Imprinted on some deathless page.
Themselves may pass; the spell they wrought
Endures on earth from age to age.
And thou, whose voice but yesterday
Fell upon charmed listening ears,
Thou shalt not know the touch of years;
Thou holdest time and chance at bay.
Thou livest in thy living word
As when its cadence first was heard.
O Gracious Poet and benign,
Beloved presence! now as then
Thou standest by the hearts of men.
Their fireside joys and griefs are thine;
Thou speakest to them of their dead,
They listen and are comforted.
They break the bread and pour the wine
Of life with thee, as in those days
Men saw thee passing on the street
Beneath the elms—O reverend feet
That walk in far celestial ways!

MELROSE POLICE NOT BEAR HUNTING

Melrose, Nov. 13.—The local police are neither losing sleep nor wasting time gunning for the bear that has appeared in various parts of the Fells district recently and which last night frightened Mrs. Chas. Messenger and her son as they were returning to their Vinton st. home.

The bear is believed to be the one that escaped from Arlington some time ago and which is perfectly tame and harmless.

WARMEST DECEMBER ON WEATHER BUREAU'S RECORD

The past month has been the warmest December since the weather bureau was established in 1872.

The lowest temperature in the month was 20 above zero.

Weather Forecaster Smith is happy to record another record established by variable New England weather.

On one day in the past month, Dec. 10, the mercury in the thermometers climbed to 64, almost summer heat.

In past years Boston has had some December days when the mercury hid down in the bulb and barely had the courage to register 12 below zero.

VERMONTERS MAKE MONEY PICKING MOUNTAIN FERNS

Bennington, Vt., Nov. 13.—The fact that farmers are turning to very profitable account the wild ferns with which the Green Mountain sides in southern Vermont are overgrown, has just come to public notice here.

During the dull days following the last of the year's regular farm harvesting the farmers are earning exceptionally good wages in gathering ferns and sending them to New York and Boston florists.

In many of the mountain towns in this section whole families may now be seen picking ferns.

While the amount paid is only 40 cents a thousand, it is said that the ferns are so plentiful that a good picker can easily gather as many as 10,000 in a day, making a wage of $4. The ferns are tied in bunches of 25 and delivered at the nearest railroad station for shipment.

The greater part of the harvest is sold through jobbers, who place the ferns in cold storage and sell to the florists during the winter. The ferns are used for backgrounds in packing flowers.
